

Spring 2024 Newsletter

The mission of the Perry County Park District is to support the conservation and preservation of natural areas in Perry County and to enhance wonder, appreciation, and education within our county through environmental, historical, cultural, and recreational programs and activities, to enrich the quality of life in our communities.

Update:

We want to thank everyone for the support, attendance and donations last year. Everything helps us expand our resources and broaden what we can offer this wonderful community.

If you haven't checked out the Education Center at the Glenford Fort Preserve yet, there are lots of new opportunities! We hope to see you soon.

Park District staff and board members
Left to Right: Jessie Bennett, Tami McAdams, Jack Coll, Scott Moore, Fred Redfern, Sue Oberhauser

Meet Your Park Board Chair: Scott Moore

Scott was born and raised in Greene County. As a young adult, he studied at Hocking Tech in Nelsonville and began a career in forestry with the State of Wyoming in 1977. This led to a position at a brand new gold mine in Northern California and after seeing development, operation, and finally reclamation in the course of 34 years, Scott retired in 2015. He now lives in Corning with his wife Lesley.

Scott says "Coming back to live in Ohio again has been a great 'reset.'" He hopes to make the Perry County Park District an asset within the region that promotes all the recreation, historic, and educational opportunities Perry County has to offer. He has served on the Park Board since 2017.
